1

Pack Goal

Help children develop real-world AI awareness, logical thinking and problem-solving skills through fun, hands-on activities.

2

Duration

30 Pages
Self-paced
Use 10–20 minutes per day (flexible).

Learn at your own pace!

3

Materials Needed

- ✓ Printed workbook (this pack)
- ✓ Pencil, eraser, colors
- ✓ Scissors and glue (where needed)
- ✓ A curious mind!

4

How to Use This Pack?

- ✓ Read a page together
- ✓ Let your child try the activity
- ✓ Have open discussions
- ✓ Encourage creative thinking
- ✓ Celebrate their ideas (no right or wrong answers!)

Small Steps Big Confidence!

5

Easy & Challenge Mode

Easy Mode (8 – 9 years)

- Simpler activities
- Visual support
- Builds basic understanding
- Perfect for younger learners

Challenge Mode (10 – 12 years)

- Slightly advanced activities
- Requires deeper thinking
- Builds real problem-solving skills
- Great for older or more confident learners

Same Activity. Different Thinking Levels!

6

What's Inside? (6 Units)

Unit 1
AI Around Us

Real-world AI spotting

Unit 2
Data & Patterns

AI kaise seekhta hai

Unit 3
Algorithms & Prediction

Step-by-step thinking

Unit 4
Prompting Basics

AI se sahi baat karna

Unit 5
AI Mistakes & Safety

Limitations samajhna

Unit 6
Projects & Challenge

Apna AI idea banana

100% Paper-Based, Screen-Free Learning!

Smart Brain Mission

Curious Minds Brighter Futures 😊

Data Matlab Kya?

Data matlab information — numbers, pictures, words.

Jitna zyada sahi data AI ko milega, utna better wo seekhega.

Bilkul jaise tum jitni zyada practice karoge cricket mein, utne better banoge.

More Practice Better Performance! 😊

Same with AI — More Data Better Learning! 😊

Activity: Data Kya Hai?

Neeche di gayi cheezein "Data" hain ya "Not Data"? Sahi box par ✓ karo.

1. Tumhari height

☐ Data

☐ Not Data

2. Tumhara favorite color

☐ Data

☐ Not Data

3. Aasman ka color

☐ Data

☐ Not Data

4. Ek gaana

☐ Data

☐ Not Data

5. Ek photo

☐ Data

☐ Not Data

6. Hawa ka feel

☐ Data

☐ Not Data

Challenge (10–12 years)

3 apni khud ki "data" examples likho (jaise tumhari age, class, hobby).

BRIGHTER FUTURES

AI Se Baat Kaise Karein?

Agar tum AI se kuch poochte ho aur usse sahi jawab chahiye, to sawal bhi sahi tareeke se poochna padta hai!

Good Prompts = Better Answers!

Curious Minds Brighter Futures

1

What is a Prompt?

Jo instruction ya sawal hum AI ko dete hain, use **"Prompt"** kehte hain.
Clear prompt = better answer.

Remember:

- Be clear
- Give details
- Be specific
- Say what you need

2

Good vs Confusing Prompt

Dono prompts padho aur socho kaunsa better hai.

A

Confusing Prompt

Kuch bata do.

Yeh prompt bahut general hai.
AI ko pata nahi chalega ki tumhe kis cheez ke baare mein jaana hai.

B

Clear Prompt

Mujhe sher ke baare mein 3 interesting facts batao.

Yeh prompt **specific** hai.
AI ko clearly pata hai ki tum kya chahte ho (kis topic par, kitne facts chahiye).

Kyun B better hai? Likho:

3

Challenge: Your Own Prompts

Apna khud ek "confusing prompt" likho aur fir use "clear prompt" mein badlo.

My Confusing Prompt

My Clear Prompt

AI for Good: Brainstorm Karo!

AI sirf games ke liye nahi — duniya ki madad bhi kar sakta hai!

Same Technology... A Brighter World!

Think Bigger Be Kinder Use AI for Good!

1

Brainstorm: AI kaise madad kar sakta hai?

Neeche diye gaye areas mein apna idea likho.

Environment ki madad:

(Jaise pollution kam karna, forests bachana, etc.)

Cleaner Greener Happier Planet!

Doctors ki madad:

(Jaise bimari jaldi pehchanna, better treatment, etc.)

Healthier People Happier Lives!

Padhai mein madad:

(Jaise personalized learning, doubts solve karna, etc.)

Learn Better Grow Faster!

Animals ki madad:

(Jaise endangered animals ki protection, their health, etc.)

Happier Animals A Kinder World!

2

Challenge: Ek idea ko detail mein likho!

Upar diye gaye ideas mein se ek choose karo aur usko 3–4 lines mein explain karo.

Small Ideas Can Make a Big Difference!
